

Nitro Unit -Espresso Martini / Cold Brew Coffee

Product details

Perfect Pour Every Time -Espresso Martini in 18 seconds

- This cooler has a continuous cooling performance of 20-30l/ h.
- Presents a perfect nitro product every time - complete with cascading effect
- No need for external gas bottle - it uses nitrogen from the air and infuses with product
- Can be connected to 5L container (supplied) or larger 19L and 50L kegs
- Massive return on investment due to reduced production time - 6 espresso martinis in under 2 mins.
